

# FIRST AID

## Emergency First Aid at Work

An Emergency First Aid at Work qualification provides delegates with the skills and knowledge to deal with first aid situations in shops and offices that are generally thought of as low-risk work environments.

### Programme/Course Content

A range of subjects is covered including:

- Responsibilities and reporting
- Legalities
- Hygiene
- Assessment of the situation
- Resuscitation
- Recovery Position
- Choking
- Foreign Objects
- Anaphylaxis
- Shock
- Heart attack
- Angina
- Bleeding control
- Seizures
- Fainting
- Minor burns and scalds

**Aimed at:** Each of our courses can be tailored to meet your team's requirements, whether introductory, intermediate or advanced. We can design the ideal solution to accommodate your team's ability, knowledge, practical experience and previous training.

**Accreditation:** OFQUAL Level 2 Award in Emergency First Aid at Work (QCF)

**Further information:** Assessment is on-going by the Instructor, and a full HSE approved three-year qualification will be issued to those who satisfy the assessment criteria. For more information, or to make a booking, please get in touch with our team today.
