

## Diabetes Awareness

This Diabetes Awareness Course enables staff to provide support, care, help and advice to people who have diabetes. Delegates are equipped with the understanding, knowledge and confidence to provide care, and gain insight into the condition, its symptoms, causes and challenges.

### Programme/Course Content:

- What is diabetes
- Diagnosis
- Living with diabetes
- Management
- Complications
- Monitoring of blood sugar levels
- Nutrition
- Diabetic emergencies
- Summary and evaluation

**Aimed at:** Professionals who work with service users or clients who have diabetes

**Accreditation:** If you require additional accreditation or distance learning course options then please consider the following courses:

- Diabetes Awareness
- Diabetes Care

**Further information:** A Safe Administration of Insulin course is available for those delegates who require practical training. After the course delegates will need to be assessed for competency within their work setting prior to certification.
