

Infection Prevention and Control

By participating in this Infection Prevention and Control course, delegates increase awareness of conditions and common infections that can arise within a care setting. This understanding is vital to prevent an infectious outbreak and to protect the well-being of service staff and service users.

Programme/Course Content:

- Common infections and conditions
- Protection via Isolation
- Precautionary measures and PPE
- Hand hygiene
- Handling linen
- Disposal of waste
- Safe handling of sharps
- Decontamination
- Summary and evaluation
- Assessment & Certification

Aimed at: Each of our courses can be tailored to meet your team's requirements, whether introductory, intermediate or advanced. We can design the ideal solution to accommodate your team's ability, knowledge, practical experience and previous training.

Accreditation: This course can be externally accredited by Highfield ABC at Level 2. If you require additional accreditation or distance learning course options then please consider the following courses:

- Prevention and Control of Infection Award
- Prevention and Control of Infection Certificate

Further information: Whatever your requirement might be in relation to training and organisational development why not call or email us to see how we can help.
