

Care Certificate Assessor

Every employee in the care sector must complete the Care Certificate before practicing without direct supervision, and it is the responsibility of the assessor to decide whether the worker has met the standards set out in the Care Certificate. This course gives assessors the skills, experience and confidence to ensure care workers achieve the new learning outcomes, competences and standards of behaviour expected of them.

Programme/Course Content:

- Assessing Skills - knowledge and understanding
- Practical Exploration of assessing Standards 1-7 of the Care Certificate
- Practical Exploration of assessing Standards 8-15 of the Care Certificate
- Standardisation of the Care Certificate and Best Practice

Aimed at: Supervisors, managers and in-house trainers

Accreditation: CQC Compliant

Additional QCF Level 3 accreditation available.
