

## HEALTH AND SAFETY

### COSHH Level 2 QCF

During the COSHH Level 2 QCF delegates learn about the basics of substance control and handling. This is delivered alongside advanced teachings on how to minimise risks and keep the workplace safe. The course also covers the full COSHH assessment.

#### Programme/Course Content:

- Definition and types of substances hazardous to health in the workplace
- Health effects of hazardous substances and their causes
- COSHH assessments and control methods
- Responsibilities imposed by the COSHH Regulations 2002

**Aimed at:** Employees coming into contact with hazardous substances

**Accreditation:** OFQUAL

**Further information:** Please get in touch with our team today to discuss your requirements.
